

27 November 1972

MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT: Information Science Training

REFERENCE: Memorandum dated 16 Nov 72  
to Executive Director from DD/S,  
same subject

1. The community requirement for Information Science Training at least through FY 74 has been established and I concur with the recommendation that the present CIA support for this program be continued.

2. The Information Handling Committee has received strong expressions of interest in a course directed at indication and warning intelligence. The outline for such a course was developed under a contract supervised by the IHC and is available. It is hoped that an Indication and Warning course can be added to the present Information Science curriculum.

(Signed) Bronson Tweedy
